

Workplace Skills

(commonly known as Internship)

Are you ready to move out the classroom and learn on-the-job at a local business? Do you want to have an internship on your resume or college application? Critical Workplace Skills allows you to explore the career of your dreams with an internship as part of your high school experience! Find opportunities in physical therapy, education, culinary arts, health care and many more.

HOW IT WORKS

- Be a Junior or Senior with a Career Goal.
- Have your own transportation.
- Sign up for **Critical Workplace Skills** (commonly known as internship). This is a semester course taught 4th period. A letter grade is given and students receive CTE or elective credit.
- Have 3 hours a week available to go to your internship.
- Complete the application form and turn in to Mrs. Kemp.
- It is helpful if students arrange or find their own internship site, however the coordinator has many ideas and contacts.
